

TEST PROCEDURE

At about 30 minutes, remove the top lid completely to take a picture using the KInTouch App.

Confirm and save the test results according to the instruction in the App.

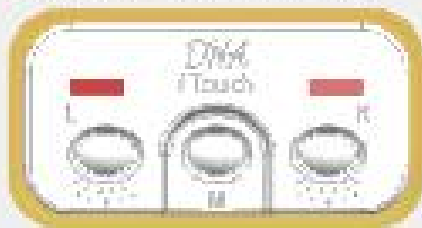

09

TEST PROCEDURE

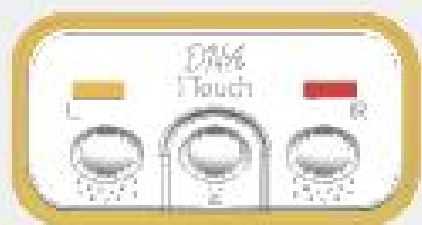

[RESULT INTERPRETATION]

Red in both windows.

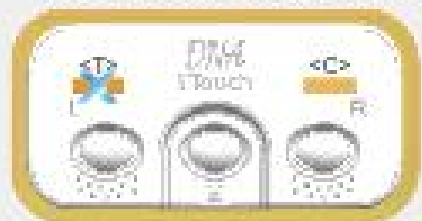

POSITIVE
1st or 2nd Degree Relatives

Red in the right window.
Yellow in the left window.

NEGATIVE
Neither 1st nor 2nd Degree
Relatives.

Yellow in the right window.

INVALID
Uncertain Results Due to
Control Failure.

TEST PROCEDURE

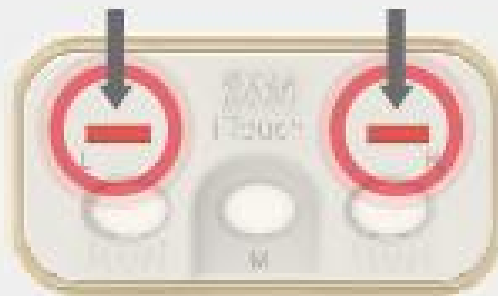

Cover the cassette firmly with the top lid.

 **10 min...**

After ten minutes,
read the color pattern
of the windows.

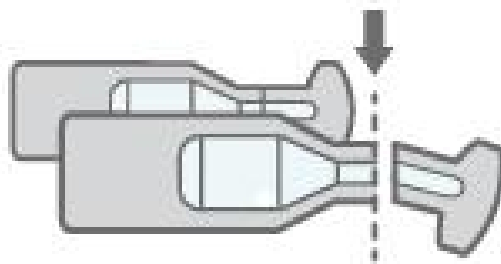

Interpret the test
results according to
the following rule.

07

TEST PROCEDURE

Break open a Water Packet along the cutline in the spout.

 **1min...**

Open the cassette and place the spout firmly against the middle (M) touchpad. Let water flow onto the touchpad naturally with a gentle squeeze.

It takes about one minute to empty the entire Water Packet and the bands in the two windows will start to change colors.

DO NOT OVER-SQUEEZE.

06

TEST PROCEDURE

20sec

#2

#2

Open the cassette and press the middle (M) and right (R) touchpads gently with moist index and middle fingers for 20 seconds.

Place the top lid back to the cassette to prevent contamination.

05

TEST PROCEDURE

SUBJECT #2:

Wash hands thoroughly and dry with a fresh paper towel.

Grab a fresh Cleansing Wipe with the *left-hand* thumb, index and middle fingers and clean these fingers briefly. Discard the used wipe.

Rub the thumb against index and middle fingers for 5 seconds.

Keep fingers moist for the next step.

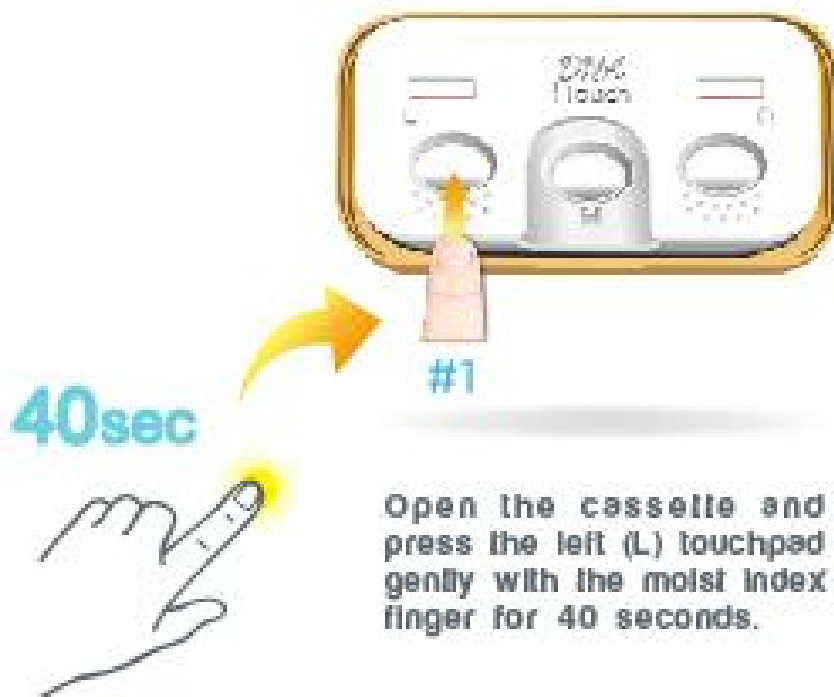

BRIEFLY

5 SECONDS

04

TEST PROCEDURE

Place the top lid back to the cassette to prevent contamination.

TEST PROCEDURE

SUBJECT #1:

Wash hands thoroughly and dry with a fresh paper towel.

Grab a fresh Cleansing Wipe with the left-hand thumb and index fingers and clean these fingers briefly. Discard the used wipe.

Rub the thumb against index finger for 5 seconds.

Keep fingers moist for the next step.

02

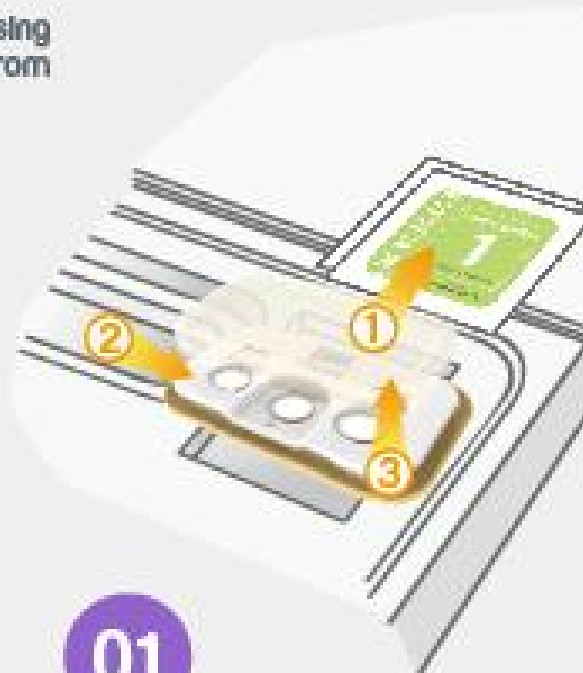

TEST PROCEDURE

Read the How-to Guide thoroughly before taking the test.

1. Remove the Cleansing Wipe (2 packets) from the seal.
2. Move a cassette to the same spot.
3. Unlock the top lid of the cassette and keep its lid loosely on.
